Consulate of the United States
For the Hawaiian Islands

To all to Whom these presents shall or
may come I Joel Turrill Consul of the United
States of America for the Hawaiian Islands
Send Greeting,

Know ye, that on the first
day of May A D one thousand eight Hundred
and forty Seven, before me, the aforesaid
Consul of the United States of America for
the Hawaiian Islands Personally Appeared
Allen G Ellis Master of Ship Wm Thompson
of Newburyport, State of Massachusetts, of
the burthen of Four Hundred and Sixty
five tons, or thereabouts, and in due form
of law Noted a protest for the uses and
purposes hereinafter Mentioned :-

And now at this date. to wit— the day of the date hereof. again comes the said Allen G Ellis Master of said Ship Wm Thompson. together with Sylvester S Gary Mate and John Marvin & James Marston Seamen all attached to said Ship, Who being duly Sworn declare & depose as follows; that is to say;

That on or about the 15th Day of November A D one Thousand Eight Hundred and forty Seven. the said Allen G Ellis departed from Dartsmouth in and with the said Ship Wm Thompson as Master thereof. bound on a whaling voyage to the Pacific Ocean for the purpose of procuring a Cargo of Oil.

That the said Ship was staunch tight & strong and in every respect in good order, and well manned and fitted for the voyage she was about to undertake. That in the prosecution of said voyage. the Ship touched at the Ports of Pernambuco and Lahaina. Island of Maui on the fourteenth Day of April A D one thousand Eight Hundred and forty seven, hauled off and on at the Harbour of Honolulu. Island of Oahu. on the fifteenth Sixteenth and part of the Seventeenth days of April and in the afternoon of the Seventeenth took her departure and proceeded on her voyage. the Ship being in every way in good order for the Cruise She was about to make.

That on the Eighteenth day of April being in Lat 23° North, Long 166° West or thereabouts and about 46 Miles North West of the Island of Necker between ten and Eleven o'clock P M the Ship was discovered to be on fire from her being full of Smoke below. every Exertion was immediately made to Smother the fire by Caulking and battening all the openings to the Hold, the Ship was put about as soon as possible and steered for the Island of Necker Which Island She arrived

ad and anchored in the Harbour of Warmea, at 11 O'Clock A.M. on the Nineteenth. In the afternoon of the Same day the Ship were Scuttled whereupon the fire was found to be in the Starboard Fore hold between decks, great efforts were made to Extinguish it by pouring in water But finding the fire increasing rapidly, Again Stopt all the openings, in or to Smother it if possible. That on the Morning of the twenty first of April the fire Still continuing to burn, the Ship Scuttles were Opened and Others cut - Vessel Gone Fore through which we Succeeded in getting Water to the fire and finally Extinguished it about Eleven O'Clk A.M.

Upon a Subsequent Examination it was found that the Vessels Sails Rigging and all Other articles between decks were more or less damaged by the fire and in consequence of the fire. As follows. The Cutline, Trinquet, Beaum, and Hanging & Lodging Knee, aft Fore Hatch were badly burnt. Also Cutline in Wake of Fore Hatch, and next cutline in wake of Windlass Bits with Lodging Knee, Decks aft Fore hatch - Stove Pieces in wake of Fore hatch and upper part of Bulk Head Badly burnt. Beam forward of Fore hatch, Lodging Knee, Fore and aft Cutline under Windlass Bitts, and Windlass Bitts Entirely gone, on Starboard Side Cutline and Decks Considerably Charred. A Lot of Sails Consisting of Two Fore Top Sails, One Fore Sail, One Fore Stay Sail, One Main Sail, One Close Reefed Sail, Two Main Top Sails, One Sail, One topmast Studding Sail, One Fore topmast Stay Sail and two top Gallant Sails, were more or less damaged, and Some of them entirely Destroyed also a Quantity of Lines, Hemp Lanyards A large lot of Manilla Rigging, Cutting falls, Deep Sea Lines, Spunyarn Seizing Stuff, Royal Rigging, Iron Hoops

Stocks, Quarter Galls, Boat Knees & Keels
Lumber & Sawed were much damaged & the
Cabin and Furniture were also much injured
That on the Twenty Seventh day
of April left the Harbour of Waimea, and
proceeded direct to Honolulu for the purpose
of Repairing Said Loss and Damage & Arrived
at and Entered the Harbour of Honolulu on the
first day May;
And the Said Appearers Say;
that, as all the Damage and injury which already
has or may hereafter appear to have happened
or occured to Said Ship or her Cargo has been
occasioned Solely by the circumstances herein
before Stated and cannot or ought not to be
attributed to any fault of the Said Allen G Ellis
Master his Officers — and further Deponents

Wherefore the Said Allen G Ellis
Master now Requires me the Said Consul,
to Make his Protest and this public act
thereof, that the Same may Serve and be of
full force and Value as of Right Shall thereto
appertain:— And therefore the Said Allen
G Ellis doth Protest and I the Said United
States Consul at his Special instance and
request do by these presents, Publicly and
Solemnly Protest against fire and all the
Effects of fire
Against all persons whom it
doth, Shall or may concern, and against all
and every Accident, Matter and Thing, here

Anchored in Port Apra Island
of Guam in 22 fathoms Good holding ground
for Ships, and an Excellent Harbour. Here
we found Fresh Provisions and Vegetables
Pure Water and Beef. Guam is one of the
most Desirable places to recruit a Whale Ship
I ever was at Only thing to be had on Shore
is Intoxicating. The Inhabitants is trouble
to the Sailors. More so than any other Port
in the Pacific Ocean. I would advise all
Shipmasters Who Wish to avoid trouble and save
time, not to come to this Island for recruits

The Sailor

1st A Sailor ever loves to be in Motion,
Roaming about, he scarce knows Where or Why,
He looks upon the dim and Shadowy Ocean
At home, abhors the Sands; and Eve the Sky,
Boundless and beautiful, has naught to please,
Except some clouds, which promise him a breeze.

2d He is a child of mere impulse and passion,
Loving his friends, and generous to his foes,
And fickle as the most Ephemeral fashion.
Save in the cut and color of his clothes,
And in a set of phrases, which on Land
The wisest head could never understand.

3d He thinks his dialect the very best
That ever flowed from any human lip,
And Whether in his prayers, or at jest,
Uses the terms for Managing a Ship;
And even in death would order up the helm,
Or hope to clear the "undiscovered realm.

4th He makes a friend Where'er he meets a Shore,
On whom he cherishes with some affection;
But Leaving port, he thinks of her no more,
Unless it be, perchance, in some reflection
Upon his wicked ways, then, with a Sigh,
Resolves on reformation — ere he die.

5th On calms, he gazes at the Sleeping Sea,
Or licks his lines, and sets himself to angling,
Or takes to politics, and, being free
Of facts and full of feeling, falls to wrangling;
Then recollects a distant eye and lip,
And rues the day on which he saw a Ship.

6th Then looks up to the Sky to watch each cloud,
. As it displays its wint and flashing form;
. Then o'er the calm begins to mutter loud,
. And swears he would exchange it for a Storm,
Tornado, anything — to put a close
. To this most dead, Monotonous repose.

7th. An Order given, and he obeys, of course,
. Though 'twere to run his Ship upon the rocks.
. Capture a Squadron with both crew force —
. Or batter down the massive granite blocks.
. Of some huge Fortress with a swivel pike,
. Pistol, aught that will throw a ball, or Strike.

8th He never thinks, whatever may betide;
His weapons may be Shivered in his hand,
His last companion Shot down at his Side,
Still he maintains a firm and desperate Stand —
. Bleeding and battling — with his colours fast
. As nail can bind them to his Shattered mast.
9th . Such men fall not unmourned — their watting — Shat
. May be the oceans deep, unresting wave;
Yet o'er their grave will wandering winds repeat
The dirge of Millions for the fallen brave;
While each high deed survives in hilier trust;
Than those consigned to mould or Marble dust.

11th I'll love the Sailor — his eventful life —
His generous Spirit — his contempt of danger —
His firmness in the Gale, the wreck, and Strife;
And though a wild and reckless Ocean-ranger,
God grant he make that port when life is over,
Where Storms are hushed and billows break no more.

Honolulu August 10th

Dear Sir

You may recollect that the evening, previous to your Sailing in the Bark Flora from Oahu we had some little traffic of trowsers & Hats &c &c And that you gave the Boy then living with me for them a piece for gold for four Dollars. Which proves to be Spurious, You will recollect that the piece was given to the Boy then ~~living with me~~ and that he gave a $1.00 in change, Tis that I wish to see it for this I notice it for two or three days afterwards, or I should have mentioned it to you before You Sailed; The Boy is positive that you Gave him the piece, And I am sensible that I had no Such Money previous, as the gold I had I got from Mr Blackler of Otaheite, and had handled frequently, So that I can only imagine by way of Explanation, that you were not aware what kind of piece you gave me at the time, as I am of an opinion from the many good Offices done for me by you, that you would not have intentionally palmed upon me as Spurious money — I shall shortly see you before I go home, and have no doubt that the Matter can be Explained to our Satisfaction — And with such thoughts I remain

Respectfully Your

Hon George Bancroft
Secretary of the Navy
Sir

The undersigned Merchants, Shipmasters and others interested in the Whale fishery, respectfully represent that the fishery on the North West Coast of America employs about Three Hundred Ships, navigated by at least nine thousand Seamen, that among the Vessels composing this immense fleet accidents and instances of insubordination sometimes occur, compelling the Vessels to abandon the fishing ground in the midst of the season and return to the Sandwich Islands or Elsewhere, to make Repairs or to discharge refractory Seamen; and obtain others in their Stead to the great detriment of the parties interested; and they believe that much of this inconvenience and expense may be obviated by Stationing a Frigate or Sloop of War upon that Coast during each fishing season; say from May to October, the Commander of which might be instructed to afford to the fleet such facilities as were in his power, in the repair of damages, or in repressing any tendency to insubordination which may manifest itself among the Crews.

The French and English Whales which together do not number a tithe of the American Vessels engaged in that fishery, have each a government Vessel cruising among them; or Stationed within a few days Sail, expressly for the objects we have in view, and we trust that as soon as the convenience of the Department will permit, a Suitable Cruiser may be dispatched to that Station for the protection of our interests

Sir

Yours of the 20 inst was received, and in reply I have to say that I fully concur with you in your Opinion respecting the unfitness of Ship Philip Tabb to proceed on her voyage. And also agree with the Surveyors in their report handed in to the U S Consul.
Considering her General Wrecked State and the great expense of repairs here, She would in my Opinion, be Condemned and Sold for the benefit of all concerned

Dr Sir

A word at Sea, and with a mind dispirited in regard to our prospects of getting Oil, having been some five or six weeks without getting a Whale; but though our minds are gloomy, we keep up appearances and make the greater exertions — the more our Responsibility increases. we do every thing to see them and go every where to find them, and when we have failed in our suggestions, why then we go back and do it all over; At the time I write we have on Board 50 Bbls of Sperm Oil having been out on this Cruise two Months and taken Nothing as yet, We are now on what is considered good Whale Ground, and are cruising over it fair and clear with all our eyes open for Whales and every body eager to meet their prize, as we are now doing So we shall continue to do, with all our best endeavours, and Minds entirely devoted to the purpose. Until the last sheep is ours, and when that is out We shall be Loth to give up the Ship,, If we dont get oil we shall probably cruise for 2 Months longer and after recruiting proceed to the Line for another season. Now Sir having stated our case plainly I solicit your toleration which will cheer us on to our Mighty End

Yours in all Respect
Allen G Ellis

To Gn Pillsmoorie
H. Consul Fernambuco

Sir I came in here for the purpose of
landing two of my crew, (viz) David L Page &
Jno L Lowe for Insolence and disorderly conduct
during my passage from Newcastle to this place
David L Page for threatening the lives of the Officers,
and wounding the Green Hands to set fire to the Ship,
Amos Gray for stabbing one of the crew by the name
of Geo H Bird in a most shocking Manner Bird losing
his eye, leaving his face & without any provocation
Whatever and telling one of my crew by the name of
John Lord Clarke, that he ought to be thrown Overboard
or cutting the throat or fire on the night of the 16th
Dec 1846, and also for throwing a lamp at Captain Curtis
while going in his berth, the two above named Men
been the cause of great deal of trouble to myself Officers
and Crew, I therefore request that you will take them
under your charge and deal with them as you may
think proper, I am Sir

Dec 31st Silver says to Mason on the leaving the Hence at pernambuco. Never Mind All We Do Something So That I can get ashore again.

About the time I that got nearly to my anchor at Pernambuco Lyman Lockman told me that Page had repeatedly persuadded him to Steal the Ships Papers and Chig them forward

Dec 30th Lyman Lockmen had a fight with Sanford Curtis. afterwards Denied his duty

Dec 15th Stole a Musket out of the Cabin carried it forward and Secured it up in the bed of another person

His giving me impudent and abusive Language on the 15th Dec and Making faces at me

Leslie for getting drunk on the 25 Nov would not come on deck in his watch

For Denying his duty on 30 Dec and Continually sleeps in his watch on deck

Thomas Silver for Getting drunk on 25 Dec using abusive Language to the Officers for fighting and always a Constant associate with Page, and going forward and telling the crew that it was the Capt Orders that he Silver should arrest the mutineers out to the crew or Beating the Second Mate throwing things at him in the dark, annoying him in Every way possible. Never Coming to wheel when his turn come always Skulk away in the forecastle Several times Caught him Down in the forecastle when we have been Making Sail while in the Bout off Pernambuco, jumping out of the Boat having been previously ordered not to leave on no act by the Mate

Lyman Lockmen for throwing things at the Second Mate in the dark. 1st day for while the men were at work off board him under the bulwarks
